👤 PROFILE

I am a final-year undergraduate student at ICBT with robust problem-solving skills. Over the course of my studies, I have developed strong leadership skills, enjoy collaboration and teamwork, and have good communication skills. I'm interested in learning more about new technology. In addition, I am the type of person who would never pass up even a minor opportunity. As a result, whenever I get the opportunity, I will take advantage of it, and I will learn from my failures in order to improve my future successes.

🧩 SKILLS

- **Frameworks**
  React.js, Node.js, Express.js

- **Web Programming**
  HTML, CSS, JavaScript, PHP

- **Database**
  MongoDB, MySQL

- **Cloud Service**
  AWS

- **Extras**
  GitHub, Git, Rest API, VS Code

🎓 EDUCATION

BSc (Hons) in Software Engineering
University of Cardiff Metropolitan (ICBT)
May 2022 - May 2023 | Final Year

Higher Diploma in Computing and Software Engineering
ICBT Colombo Campus
Jun 2019 - Jun 2021

</> PROJECT

Doctor Appointment System
🔗 : mohamedinfath99/doctor-appointment-system
    I have successfully developed an online doctor appointment system using MERN Stack. While developing the system, I considered the MVC architecture & I have developed a CRUD function to manage users, doctors' details, and doctor appointments. And also, I have used Bootstrap & Ant Design to make the system more attractive.

E-commerce Application
🔗 : mohamedinfath99/eCommerce-application
    Using MERN Stack, I have developed an e-commerce application considering MVC architecture & Also, I implemented a comprehensive set of CRUD functionalities to manage users, products, and orders. I employed Bootstrap and Ant Design to make the system more visually appealing.
